the article and just need to have their memories jogged. Next, support and/or critique the article. This should be the bulk of your presentation. If you decide to support the article, explain why you think the article is the bee's knees. Why are the findings important? What in particular about the study design was so wonderful?

PSYC GU4682 FAQs about Life: Applications of Psychological

Columbia Medicine (Spring/Summer 2018 issue) about Dr. Thorn-ton again clears the cobwebs in my head and brings back those fond memories. To her credit, Dr. Thornton has been an influen-tial role model for students and residents. Her contributions to the field of prenatal diagnostic testing and treatment have benefited her

Columbia

memories into a network of related experiences before a decision is actually faced. We discuss evidence supporting each of these mechanisms and the implications for understanding the role of memory in decision-making. Addresses 1Department of Psychology, Columbia University, 1190 Amsterdam Avenue, 2 406 Schermerhorn Hall, MC5501, New York, NY ...

Biased Retellings of Events Yield Biased Memories Barbara Tversky and Elizabeth J. Marsh Stanford University When people retell events, they take different perspectives for different audiences and purposes. In four experiments, we examined the effects of this postevent reorganization of events on memory for the original events.
