View the most recent ACS Editors' Choice articles from The Journal of Physical Chemistry A.. See all The Journal of Physical Chemistry A ACS Editors' Choice articles.. View one new peer-reviewed research article from any ACS journal, selected daily, and made open access based on recommendations by ACS journal scientific editors from around the world.

The Journal of Physical Chemistry A (ACS Publications)

Computational chemistry is a branch of chemistry that uses computer simulation to assist in solving chemical problems. It uses methods of theoretical chemistry, incorporated into efficient computer programs, to calculate the structures and properties of molecules and solids. It is necessary because, apart from relatively recent results concerning the hydrogen molecular ion (dihydrogen cation ...

Computational chemistry - Wikipedia

Efficient photocatalytic hydrogen generation in a suspension system requires a sophisticated nano-device that combines a photon absorber with effective redox catalysts. This study demonstrates an innovative molecular linking strategy for fabricating photocatalytic materials that allow effective charge separa

Nano-design of quantum dot-based photocatalysts for

This note discusses the fundamental microscopic properties of matter and radiation . Topics covered includes quantum chemistry, atomic and molecular structure and spectroscopy, non-bonded interactions, and computational chemistry.

Biophysics is an interdisciplinary science that applies approaches and methods traditionally used in physics to study biological phenomena. Biophysics covers all scales of biological organization, from molecular to organismic and populations. Biophysical research shares significant overlap with biochemistry, molecular biology, physical chemistry, physiology, nanotechnology, bioengineering ...
