A fun visual goal sheet for the year - learn a little bit about the different parts of their brain involved in music-making too.

## **This is Your Brain... on Music! (Part 1) - Panimation.com**

The study of 'music and emotion' seeks to understand the psychological relationship between human affect and music. It is a branch of music psychology with numerous areas of study, including the nature of emotional reactions to music, how characteristics of the listener may determine which emotions are felt, and which components of a musical composition or performance may elicit certain reactions.

## **Music and emotion - Wikipedia**

Music psychology, or the psychology of music, may be regarded as a branch of both psychology and musicology. It aims to explain and understand musical behaviour and experience, including the processes through which music is perceived, created, responded to, and incorporated into everyday life. Modern music psychology is primarily empirical; its knowledge tends to advance on the basis of ...
