Narratives of Memory: British Writing of the 1940s identifies memory as a previously unexamined concern in both literary and popular writing of this decade. It traces developments in narrative, especially the novel, during the war years and immediately after, showing how memory was used as both a structural device and a theme.

memory and space in this project to support a specific theoretical avenue. I argue that memory and property are socio-spatial - and that socio-spatial events, such as property loss - can "haunt" social memory. I also argue the spaces of property loss act as important sites of such haunted memories. Consequently, this project may also serve to
