A natural product is a chemical compound or substance produced by a living organism—that is, found in nature. In the broadest sense, natural products include any substance produced by life. Natural products can also be prepared by chemical synthesis (both semisynthesis and total synthesis) and have played a central role in the development of the field of organic chemistry by providing ...

Framework for Program Evaluation in Public Health. FOREWORD. Health improvement is what public health professionals strive to achieve. To reach this goal, we must devote our skill -- and our will -- to evaluating the effects of public health actions.

Framework for Program Evaluation in Public Health

This Department of Defense Instruction 4715.03, signed 14 February 2011, is a major update of DoD guidance established in 1996. It formalizes policies and procedures for the integrated management of natural resources on military lands, air, waters, coastal, and nearshore areas managed or controlled by the Department of Defense.
