Nonlinear Analysis | ScienceDirect.com

The Journal of Mathematical Analysis and Applications presents papers that treat mathematical analysis and its numerous applications. The journal emphasizes articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, and engineering, particularly those that stress analytical aspects and novel problems and their solutions.

Journal of Mathematical Analysis and Applications

Variational Bayesian methods are a family of techniques for approximating intractable integrals arising in Bayesian inference and machine learning. They are typically used in complex statistical models consisting of observed variables (usually termed "data") as well as unknown parameters and latent variables, with various sorts of relationships among the three types of random variables, as ...

Karl Friston FMedSci FRSB FRS . Wellcome Principal Research Fellow and Scientific Director. Wellcome Trust Centre for Neuroimaging Professor: Institute of Neurology, University College London

Professor Karl Friston Selected papers

Indexed in SCIE, MathSciNet and Zentralblatt Math. The Journal of Applied Analysis and Computation (JAAC) is aimed to publish original research papers and survey articles on the theory, scientific computation and application of nonlinear analysis, differential equations and dynamical systems including interdisciplinary research topics on dynamics of mathematical models arising from major areas ...

The International Journal of Nonlinear Analysis and Applications (IJNAA), a publication of Semnan University

in English is an international Double-Blind peer-reviewed journal. IJNAA is partially sponsored by Semnan University.. IJNAA is Abstracted, Reviewed and Indexed in:

International Journal of Nonlinear Analysis and Applications

Abstract: In this paper, we summarize some of the recent developments in the area of fractional equations with focus on the ideas and direct methods on fractional non-local operators.
